

Curriculum Newsletter

Dear Parents and Carers,

We hope you enjoyed your half-term break.

Literacy

In Literacy, the children will be learning to write a **fantasy narrative** based on the story called **The Lost Thing**. This will include vocabulary such as onomatopoeias, kennings, portmanteau words and skills such as punctuating dialogue .

Maths – Decimals/Fractions/Measure

In Maths, our focus this half term will be recapping **fractions and decimals** and deepening our understanding of **measure**. The children will be recapping their understanding of fractions and learning how fractions relate to decimals. After this the children will cover measurement including money and time.

Science – Electricity

This unit reconnects to previous learning about electricity, what we use it for, how it behaves and how we must use it safely. It is vital for children to be aware of and follow the classroom rules we have established in order to use electricity safely.

Geography – UK Geography

Children will build knowledge of the counties and cities of the UK, their geographical regions, human and physical characteristics and topographical features.

DT – Miniature Playground

In this unit, the children will be designing and making a miniature playground.

Music

We are recapping over the units already learnt to perform the songs in the classroom including Mamma Mia and Lean on Me.

Spanish – Pets

In this unit, the children will be learning how to say and recognise different pets in Spanish.

Thank you for your continued support—we look forward to our last term together in Year 4!

Warm regards,
Penguins Team
