

## Owls class newsletter

Welcome back to a new school year and we hope you managed to enjoy some family time and rest during the summer holidays (and make the most of the lovely weather we had!). During the first half of this term, we will be focusing on new routines and what it means to be a year 5 or 6 pupil at Eastgate. Mrs Hubbard and I are excited for a new school year and getting to know the children in our class. There will be many opportunities for you to visit us in school over the year, and we look forward to meeting you also.

In Literacy this half term, we are going to be following The Write stuff unit based on a book called Kensuke's Kingdom by Micheal Morpurgo. We will be learning how to construct an adventure story by choosing appropriate language to build suspense. As part of our SPAG lessons, we will recap word classes and sentence structure alongside some common spelling rules. The children will bring home a list of words to learn each week ready for a test on Monday afternoons.

The children are encouraged to read at home each evening as part of their homework to experience a wide range of genres. The children will change their books each Friday during our library slot.

In maths, we will be focusing on the place value unit which will cover Roman numerals, reading and writing numbers to 1,000,000 and adding and subtracting 10, 100, 1000 and 10,000 to a number.

<https://whiteroseeducation.com/>

The children are also expected to practise their times tables at home as part of their homework. It is very important that the children have a good grasp of times tables as we use these skills on a daily basis.

As part of our science lessons, the children will be learning about the human body and in particular, the circulatory system and the heart. We will be learning how exercise impacts this system and learning how to measure our pulse and other ways that we can look after our bodies.

**We Believe Education Empowers Children and Families**

Our unit in history is based on the topic of World War 1. We will learn about the countries involved and the causes. We will learn about how the war was fought in the air, on the land and the sea and what the consequences were for the women and families left at home.

As part of our art lessons, we will be learning about sculpture and architecture in the Renaissance period. We will be using clay to create relief tiles representing the Il Duomo cathedral in Florence.

In our music lessons, we will be learning about grime music and learning how the songs are constructed. We will also create our own grime songs using sound effects.

In Spanish, we will learn how to say the names of common pets that people have and how to ask others about their pets.

The class will be having their PE lesson on a Friday so will need to come to school in their appropriate PE kit, with long hair tied back and earrings removed. They will be doing gymnastics so will need indoor kit.

Regards,  
Mrs Blayney and Mrs Hubbard
